### Managing your on Farm Nutrients

Come learn how to manage your on farm nutrients through the PA Manure Management Manual and have a chance to ask questions at one of our upcoming workshops.

Each workshop will provide each attendee with a copy of the Manure Management Manual and a pre-paid soil test kit to Penn State's Agricultural Analytical Services Lab.

When: Thursday, February 4, 2016  
1:30pm

Where: Lawrence Conservation District  
Lawrence County Government Center  
430 Court Street  
New Castle, PA 16101

When: Tuesday, February 9, 2016  
1:30pm

Where: Western Reserve Farm Cooperative  
3992 State Route 208  
New Wilmington, PA 16142

When: Tuesday, February 16, 2016  
7pm— 9pm

Where: Scott VFD  
3712 Harlansburg Rd  
New Castle, PA 16101

*\*This session will feature a presentation by Donna Zang, Penn State Extension Educator.\**

### PA Manure Management One on One

Have you already started your plan, but just need to finish it? Would you like assistance in completing your plan?

Call Lauren Miloser, Nutrient Management Specialist with the Lawrence County Conservation District, to make an appointment to complete your plan.

## Equine Parasite Control: A Whole Farm Approach

Are your deworming practices appropriate for your horses? The

Penn State Extension Equine Team is conducting research that is helping horse owners determine the best practices for parasite management on their farm. Factors that contribute to parasite resistance to dewormers will be discussed along with what we have learned in the first year of research conducted in cooperation with horse owners from across Pennsylvania, including western Pennsylvania.

Come to the **February 16** workshop at the Scott Volunteer Fire Department to learn more.
