

Geology Exploration Camp 2016

Do you have a child that loves playing outside or is curious about nature? If this sounds like someone you know, then consider registering them for the Geology Exploration Camp put together by the Lawrence County Conservation District and the Department of Conservation and Natural Resources.

What is Geology Camp?

Geology Exploration Camp is a two day camp designed for children ages 12—13 where they can learn and discover the uniqueness and importance of geology through a local park. We engage the children in fun and interactive hands-on lessons, activities, and hiking to allow them to explore their natural environment.

What will my child need to bring?

Your child will need to bring a packed lunch each day. The fee does not cover lunch. Bottled water and snacks will be provided by the district. In addition, the camp is outdoors, so make sure your child is dressed appropriately. Flip-flops are **not** permitted.

How do I apply?

Please fill out the application form and mail the completed form with payment of \$30.00 per child back to the Lawrence County Conservation District by **Friday, June 3, 2016**. Please use a separate form for each child. You can make additional copies of the form or call the Conservation District for additional forms (724-656-2474). We will contact you with additional information once your child is registered.

The camp is limited to 16 participants and registrants will be selected on a first come, first serve basis.
